

Allora Laboratory, LLC.  
 405 Saint Johns Church Road, Suite 104  
 Camp Hill, Pennsylvania 17011

**PANELS**

Panel Name	Abbreviation	Assays
Basic Metabolic Panel	vBMP	A/G Albumin ALP ALT AST BUN Creatinine Globulin Protein, Total Glucose
Comprehensive Metabolic Panel	vCMP	A/G Albumin ALP ALT Anion Gap AST Bilirubin, Total BUN Calcium Cl CO <sub>2</sub> Creatinine GGT Globulin Glucose K Na Na/K Protein, Total
Electrolyte Panel	vLYTES	Anion Gap Cl CO <sub>2</sub> K Na Na/K
Iron Screen	vFe	% Saturation Iron TIBC
Lipid Panel	vLIP	Cholesterol HDL LDL-C Triglycerides
Liver Function Panel	vLFP	A/G Albumin ALP ALT AST Bilirubin, Direct Bilirubin, Total Cholesterol GGT Globulin Protein, Total

Panel Name	Abbreviation	Assays
Renal Function Panel	vRENAL	Albumin Anion Gap BUN Calcium Cl CO <sub>2</sub> Creatinine K Na Na/K Phosphorus
Thyroid Function Panel	vTHYR	Total T3 Total T4
Urine Complete	UAComp	Urine Dipstick (ketones, SG, blood, pH, urobilinogen, urine glucose, urine protein, color, clarity, urine bilirubin), Urine Microscopic
Urine Microscopic	UrMic	Looking for the presence of RBC, WBC, crystals, epithelial cells, yeast, casts, bacteria, and other miscellaneous items
Complete Blood Count	vCBC	WBC, RBC, Hemoglobin, Hematocrit, MCV, MCH, MPV, Platelet, MCHC
Complete Blood Count with WBC Differential	vCBCD	CBC components, neutrophil count and %, lymphocyte count and %, eosinophil count and %, basophil count and %, immature granulocyte (bands) count and %
Vet Antibiotic Susceptibility	vMIC	A battery of antibiotics selected based on bacterial identification
Fecal Exam	FECAL	Fecal float, direct fecal smear
C-Diff toxin (A/B)/ antigen panel	CdT/A	Detection of C. diff toxins A and B and C. diff antigen
